ROYAL ONTARIO MUSEUM OF MINERALOGY,

S.W. CORNER OF BLOOR AND AVENUE ROAD,

TORONTO, CANADA,

September 8 th 1913.

Dear Doctor Falconer;

William Allingham was attendant in the Department of Mineralogy during the last session. I beg to recommend him for the same position at \$50.00 per month beginning the 15th of September. His work was most satisfactory and in anticipation of the appointment I have instructed him to be present on the 15 th to resume duty.

Yours sincerely,

T.L. Walker

Doctor R.A. Falconer LL.D., D.Litt., C.M.G.,

President,

University of Toronto,

Toronto.

September 25th, 1913

Professor T. L. Walker,
University of Toronto.

Dear Professor Walker:

I am sending on your letter to Professor Squair who has charge of the World History course. I regret that the pressure of your other duties renders it necessary for you to withdraw from it, but your work in the past I know is appreciated as is that of the others who have done much to the course during these years.

Yours sincerely,

President.

ROYAL ONTARIO MUSEUM OF MINERALOGY,

S.W. CORNER OF BLOOR AND AVENUE ROAD,

TORONTO, CANADA,

September 24 th 1913.

Dear Doctor Falconer;

For a number of years I have been giving a few lectures to a class in World History. The numbers taking this course are now much smaller than formerly and there seems to be a general lack of interest in the course so that I should be glad if you would excuse me from taking part in the work in the future.

The enormous development of work in connection with the new Museum makes me anxious to reserve as much of my time as possible to putting things in order here.

Yours sincerely,

T. L. Walker

Director.

ROYAL ONTARIO MUSEUM OF MINERALOGY,

S.W. CORNER OF BLOOR AND AVENUE ROAD,

TORONTO, CANADA,

December 20 th 1915.

Dear Doctor Falcner,

I am enclosing herewith a copy of a letter received from Doctor Francois Loewinson-Lessing in which he asks for information regarding the organization of the University of Toronto with particular reference to the relationship of the technical faculties to the central body. I would suggest that copies of the calendars of the different faculties be sent him and also copies of the report of the last Royal Commission and the Memorial volume issued about ten years ago in which is given an account of the first fifty years of the University's development. Doctor Loewinson-Lessing is one of the leaders of geology in Russia and as you will note from his letter, was a delegate at the recent meeting of the International Geological Congress. I am writing him stating that I have handed his letter to you for action and friendly correspondence.

Wishing you a merry Christmas, I am

Yours sincerely,

T. L. Walker

Director.

Doctor R.A. Falcner, LL.D., D.Litt., C.M.G.,

President,

University of Toronto.

encl.

COPY.

My Dear Professor Waller,

As I am very much interested in the question of incorporation of technical faculties in the Universities and therefore in the organization of the Canadian and American Universities, I take the liberty of addressing myself to you with the following request: Can I have a report on the University of Toronto or something giving an account of its organization? I would be very much obliged to you for sending me such a publication or telling me where I can get it.

You were so kind and promised me to send to our Museum one or two crystals of the big pyroxenes we have admired in your Museum. I would be very much obliged to you for these specimens.

Yours most sincerely,

signed - F. Leewinson-Lessing.

Professor T. L. Walker,
University of Toronto.

My dear Professor Walker:

I am sending the
literature to Professor Loewinson-Lessing
for which he asks.

With kind regards,

I am,

Yours sincerely,

President.

ROYAL ONTARIO MUSEUM OF MINERALOGY,
S.W. CORNER OF BLOOR AND AVENUE ROAD,
TORONTO, CANADA,

March 10th 1914.

Dear Edward Belcher:

Last week I attended the meetings of The Canadian Mining Institute in Montreal. If you have a grant this year for the payment of delegates' expenses I should be glad to receive an allowance on this account. My expenses were about \$25.00.

During the Christmas holidays I attended the meeting of the Geological Society in Princeton but did not ask for any contribution from your fund on that occasion as I had other business which took me to New York independently of the meeting of the geologists.

Yours sincerely,

T. L. Walker
